The LCM ASP staff will be available if students need help with their homework but parents will maintain full responsibility for ensuring accuracy and completeness of all assignments. Students who do not have homework will have the opportunity to read during homework time.

Students are responsible for bringing their homework with them and the **LCM ASP** staff can provide pencils and notebook paper only if needed. If students need help during homework time, the teacher will provide help if they are comfortable with the subject matter. Students need to do their own homework. The teacher is not to do their work for them.
