DEVELOPMENT SECTORS

The activities/services carried out in each sector are research-based effective and included seasoned professional in the development process of our concepts!

EDUCATION SECTOR

Carried out through our after school program, we delivery interactive STEM (science, technology. engineering & mathematics) and academic enrichment to students from our partner schools.

WORKFORCE DEVELOPMENT SECTOR

Providing a pathway to High School Seniors, College Students and Young Professionals to receive industry/discipline focused experience in order to make them more competitive in the job market. In addition, to bolster career development, LCM is proposing a "International Development" sector that gives participants in this sector access, experience and exposure to community development projects on the international stage.

FAMILY INTERVENTION SECTOR

This sector is critical in our approach to address issues in economically distressed regions. We deliver male/female mentoring to our students that will positively affect character development. We are strict on involving the parents of our students in LCM activities as parent evolvment is a critical component in youth development.

CURRENT/PROSPECTIVE INITIATIVES

21ST CENTURY LEARNING -

We have long-term objectives that include the expansion of structured STEM (Science, Technology, Engineering & Math) activities by procuring innovative technology and unparalleled delivery concepts. We want to expand our program to "Title I" Schools across the East Coast.

PROJECT REVITALIZATION & ECONOMIC DEVELOPMENT -

We achieve the beautification and revitalization of surrounding economically distressed neighborhoods by executing various community projects annually. We seek to improve mobility in our communities by leveraging public/private resources and forging strategic collaborations.

FACILITY EXPANSION & CAPITAL DEVELOPMENT-

Facility Development concepts that encompass the use of interactive technology, alternative energy use and cross-functional space utilization. With futuristic design concepts, we propose site adaptable ideas that improve programmatic functions.

ENVIRONMENTAL SUSTAINABILITY

Our organization has implemented a way to address environmental issues while providing educational research projects to students. We support the use of environmental techniques that transform our communities as a push towards sustainability.
